# MORE THAN ENGLISH

## Educational experiences that will change your child's world

Connecting teenagers from around the world, at More Than English, we take students (12-17) on a **journey of personal development: linguistic, academic, social, mindset.**

More Than English is one of the UK's only independent, campus based international summer schools. From our spectacular boarding school campus in the heart of the English countryside, we create a 'home from home' environment where teenagers from different countries can make friends fast and discover the joy of learning to live and study together and communicate across cultures.

From Language to Leadership; Pro-Sports to Performing Arts, we offer a wide range of study options perfect not only for students who want to improve their English, but also for those who want to experience using their English as a tool to study new subjects.

What we think parents love more than anything else is the cosy atmosphere: the safe, secure environment on campus at Moor Park. This is the magic ingredient that gives our students the confidence to face new challenges, develop new friendships and make memories that last a lifetime.

Established in 2015, More Than English is fully accredited with 'Premier College Status' and commendable grades in 6 areas including: **Student Welfare, Quality Assurance and Learning and Teaching.**

A journey of personal development: academic, linguistic, social, mindset.
